OUR SALT IS TRUSTED

OUR SALT IS CERTIFIED

NUTRIENT SALT

Nutrient salt is an essential ingredient in many industries. Depending on the product, we can supply the salt you need. Our nutrient salt is available in several different types of packaging. Below you can find an overview of our products:

Nutrient Salt (natural)

Nutrient salt is used in the following industries: dairy, fish, soups, snacks, herbs and sauces. This type of salt is also used as swimming pool salt and industrial salt.

Available in: 25 kg bags and big bags (1000 kg).

Baker's Salt (with iodine)

Baker's salt is an essential product in the baking industry.

Available in: 25 kg bags and big bags (1000 kg).

Nitrite Salt Brine (with 0.6% of 0.9% nitrite)

Nitrite Salt Brine, for the meat processing industry, helps maintain the red colour of the meat, helps to prevent bacteria growth and prolongs shelf life.

Available in: 25 kg bags and big bags (1000 kg).

ZoPuur Cooking Salt (natural or with iodine)

Salt is known to the general public as a flavouring agent and flavour enhancer in the kitchen. Our cooking salt is available with and without iodine. Iodine is important for healthy growth, development of the nervous system and for a robust metabolism.

Available in: 1 kg bag

shakers:

- 125 g
- 250 g
- 300 g
- 500 g
- 750 g

WATER SOFTENING SALT

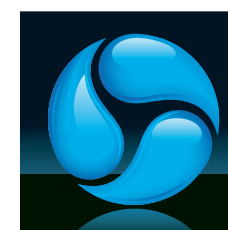

Purifies water of Calcium and Magnesium and ensures a longer life span of water treatment installations and dishwashers.

Dishwasher salt

Dishwasher salt ensures cleaner dishes and a longer life span for your dishwasher.

Available in: 1 and 2 kg packaging.

Water softening salt

Water softening salt is for the regeneration of water softening installations.

Available in: 25 kg bags and big bags (1000 kg) in pellets/tablet form.

ROAD SALT

Road salt is a thaw agent. It ensures that the melting point of water is lowered.

Strooizout

Salt used to prevent slippery roads.

Available in: 5, 7.5 and 10 kg buckets, 25 kg bags and big bags (1000 kg).
